WHO WE ARE

The Friends of Robert H. Treman State Park is incorporated as a 501(c)3 educational, not-for-profit organization, founded in 1998. Its purpose is to conduct educational and history-related programs, services, and activities in keeping with the nature of the park, to assist in fund raising activities, the purchase of objects, equipment, and supplies for the benefit of the park, and to support this park for the benefit of the local community, the residents of the State of New York, and the general public.

The Friends organization holds a winter lecture series, gives tours of the Mill at the Upper Park, publishes newsletters, and provides a bird list for park visitors. We also host Fall Heritage Days at the park with tours of the mill, the gorge, and the archaeological sites.

Your membership dollars support our educational programming, historic preservation and interpretation activities, and other initiatives that help us share the Park's unique assets with the thousands of people who visit the park every year.

For more information about meeting times and places call: [\(607\) 539-7815](tel:6075397815)
Or send us an e-mail us at:
tremanparkfriends@gmail.com

PLEASE JOIN US!

Most visitors think of swimming, picnicking, camping, and hiking as the park's key offerings; we know the park offers many more treasures and we are committed to educating local and far-away visitors alike about:

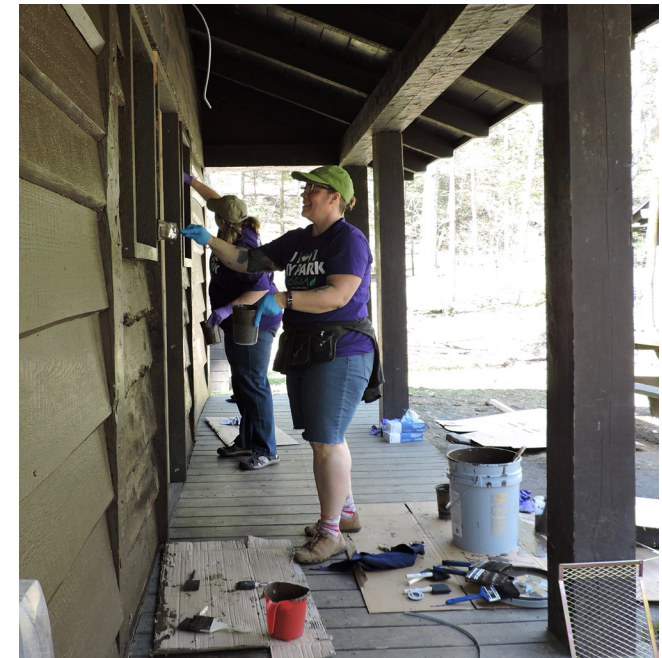

- The geologic processes that created the gorge
- The role of water power in the region's 1800s economic boom
- Tourism since 1853 to see Lucifer Falls
- The role of the Tremans in establishing the park in 1920
- Civilian Conservation Corps (CCC) Company 1265's work at the park from 1933 to 1941

EXAMPLES OF PAST PROJECTS

- Logistical support for "I Love My Park Day" volunteer workers including: food, refreshments, & equipment purchases
- Producing and updating a list of birds spotted at the Park, available at the Lower Park Office
- Creation of signage, a walking tour brochure, and museum exhibits of the archaeology of the Hamlet of Enfield Falls
- Sorting bottles and cans left at the Park by visitors. Money earned from recycling supports park projects including: refurbishment of the Upper Park maintenance facility & repainting of the entire Old Mill
